WASHINGTON STATE DEPARTMENT OF
Natural Resources

PETER GOLDMARK
Washington State Commissioner of Public Lands

January 30, 2013

To: Forest Practices Board

From: Charlene Rodgers and Carol Walters
Forest Practices HCP Administrators

Re: Briefing on the Forest Practices Habitat Conservation Plan (HCP) 5-Year Report

We will provide a briefing on the Forest Practices HCP 5-Year Report at the February 12, 2013 meeting. The briefing will include the accomplishments, challenges, and trends of implementing the Forest Practices HCP and the conditions of the Incidental Take Permits. Because of time considerations, the briefing is focused on those significant aspects of the Forest Practices Program that may be of particular interest to the Board – primarily the work of the Forest Practices Board, the Adaptive Management Program, the Compliance Monitoring Program, and Road Maintenance and Abandonment Plans. The Forest Practices HCP 5-Year Report includes a complete accounting of the accomplishments and challenges of implementing the Forest Practices HCP and notable trends.

We look forward to meeting with you on February 12, 2012.
