

Policy Request

Proponent: UPSAG	Date: January 26, 2017
Contacts: Rian Skov, Casey Hanell, Mike Maudlin	PM: Angela Johnson
Project Name/Issue: Literature Synthesis of the Effects of Forest Practices on Glacial Deep-Seated Landslides and Groundwater Recharge & Findings Report	
Request: Review of Literature Synthesis and Findings Report	
Funding Source: N/A	Urgency: Medium
<p>Request Description:</p> <p>UPSAG is requesting TFW Policy review of the Literature Synthesis of the Effects of Forest Practices on Glacial Deep-Seated Landslides and Groundwater Recharge, and the answers to the CMER/Policy Interaction Framework Six Questions Findings Report. UPSAG will be seeking approval of the Findings Report at the March TFW Policy meeting.</p> <p>UPSAG has completed and CMER has approved a focused literature review and synthesis to update CMER/Policy on research assessing the effect of forest practices on groundwater recharge areas and deep-seated landslides in glacial materials.</p> <p>Attached are the Literature Synthesis (approved by CMER on June 28, 2016), Findings Report (approved by CMER on September 27, 2016), and Memorandum from Hans Berge, AMPA.</p>
