

# Morning Star Trails Planning

**Agenda**  
**Morning Star Trail Planning Committee**  
**May 16, 2017 - 6:00 pm – 8:30 pm**  
**16018 Mill Creek Blvd, Mill Creek WA 98012**

**Meeting purpose:** Understanding Morning Star's unique qualities: geology, soils, riparian areas, wildlife habitat and sensitive plant considerations in trails planning.

- 6:00 Welcome  
Review Agenda  
Public Guest introductions
- 6:10 Approval of Meeting 3 summary
- 6:15 **Physical Characteristics of Morning Star**
- Habitat Series - Plants presented by Holly Zox, Morning Star Steward
- Habitat Series - Wildlife presented by Ruth Milner, WDFS Wildlife Biologist
- 7:00 Break
- 7:10 **Physical Characteristics of Morning Star**
- Geology Series - Presented by Paul McFarland, Natural Areas Manager
- Soils Series - Presented by Phil Roberts, NRCS Soils Scientist
- Riparian Series - Presented by Paul McFarland, Natural Areas Manager
- 8:00 Questions and Public Comment
- 8:20 **Next steps:** Prioritizing projects: Using the handout of public and committee input categories, and factoring in the unique environment of Morning Star, please begin to think about the most important work and emphasis needed in the next ten year period. The selection of priority projects will begin next meeting (June), followed by site visits to confirm priorities (July), and create the final list in our August meeting.
- 8:30 Adjourn

- We will provide light refreshments -
