TIME: 2:31 PM

WSR 23-11-070

Agency: Department of Natural Resources

Subject of possible rule making: Amending WAC 332-120-060 & WAC 332-120-070 to revise the project completion and perpetuation process. Providing an improved method of record keeping and documentation of land survey monument perpetuations.

Statutes authorizing the agency to adopt rules on this subject: RCW 58.24.030(2) and 58.24.040(8).

Reasons why rules on this subject may be needed and what they might accomplish: The current WAC 332-120-060 project completion process needs clarification of how a permanent public record of a land survey monument is created. The availability and access to the public record of land survey monument perpetuations will be spelled out in the revised WAC.

Identify other federal and state agencies that regulate this subject and the process coordinating the rule with these agencies: Coordination on compliance will be with the Board of Registration for Professional Engineers and Land Surveyors (BRPELS), and the County Road Administration Board (CRAB)

Process for developing new rule (check all that apply):

- Negotiated rule making
- Pilot rule making
- Agency study
- Other (describe) Full rule-making process. Drafted in conjunction with stakeholders, including the Board of Registration.

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication by contacting:
