<b>Page</b>	<b>Title</b>
<b>i</b>	<b>EXECUTIVE SUMMARY</b>
i	Background
ii	Activities Covered by the FPHCP
iii	Lands Covered by the FPHCP
iii	Species Covered by the FPHCP
iv	The Forest Practices Habitat Conservation Plan
v	Alternatives Analyzed
viii	Conclusion
<b>1</b>	<b>1. INTRODUCTION</b>
2	1-1 Statement of Purpose
4	1-2 Endangered Species Act and Assurances
13	1-3 Clean Water Act and Assurances
14	1-4 Activities Covered by the Plan
16	1-5 Lands Covered by the Plan
23	1-6 Species Covered by the Plan
29	1-7 Federally Listed and Candidate Species Not Covered by the Plan
<b>39</b>	<b>2. PLANNING CONTEXT</b>
41	2-1 History of Forest Practices Regulation in Washington
52	2-2 Other Salmon Recovery Efforts in Washington
64	2-3 Relationship of FPHCP to Other Laws and Regulations
<b>75</b>	<b>3. BIOLOGICAL DATA ON AND FACTORS AFFECTING COVERED SPECIES</b>
75	3-1 Fish
123	3-2 Amphibians
<b>133</b>	<b>4. THE PLAN</b>
<b>137</b>	<b>4a. Forest Practices Administrative Framework</b>
137	4a-1 Forest Practices Program Participants
148	4a-2 Forest Practices Program Development
152	4a-3 Forest Practices Program Implementation
173	4a-4 Forest Practices Program Refinement/Adaptive Management
<b>181</b>	<b>4b. Riparian Strategy</b>
182	4b-1 Water Typing Systems
187	4b-2 Channel Migration Zones
187	4b-3 Riparian Protection Measures for Typed Waters
208	4b-4 Wetland Protection Measures
211	4b-5 Logging Practices
214	4b-6 Conservation Easement/Acquisition Programs

<b>Page</b>	<b>Title</b>
<b>217</b>	<b>4c. Upland Strategy</b>
218	4c-1 Unstable Slopes and Landforms
221	4c-2 Forest Roads
227	4c-3 Rain-on-Snow
<b>229</b>	<b>4d. Rationale for the Plan</b>
229	4d-1 Rationale for Riparian Conservation Strategy
245	4d-2 Rationale for the Upland Conservation Strategy
<b>249</b>	<b>4e. Direct and Indirect Effects of Activities Covered by the Plan</b>
249	4e-1 Introduction
249	4e-2 Approach
252	4e-3 Results
263	4e-4 Summary
<b>267</b>	<b>5. ALTERNATIVES</b>
268	5-1 Development of Alternatives
269	5-2 Alternative 1 – No Action
271	5-3 Alternative 3 – Implement a Conservation Plan with NOAA Fisheries 4(d) Limit 13 Approval and USFWS Take Exemption
273	5-4 Alternative 4 – Increased Protections Compared to Alternative 2 (the FPHCP) or Alternative 3 (the 4(d) Take Authorization)
	<b>APPENDIX</b>
A-1	A Implementation Agreement
B-1	B Forests and Fish Report
C-1	C 1999 Forests and Fish Law
D-1	D FFR – Federal Assurances
E-1	E Chapter 76.09 RCW
F-1	F Forest Practices Board Manual
G-1	G Road Maintenance and Abandonment Plans
H-1	H Cooperative Monitoring, Evaluation, and Research Committee Work Plan
I-1	I Timber/Fish/Wildlife Cultural Resources Committee
J-1	J Small Forest Landowner Database and Exempt 20-Acre RMZ
K-1	K Critical Area Calculations
L-1	L Timber/Fish/Wildlife Agreement
M-1	M Rain-On-Snow
N-1	N Schedule L-1
AA-1	<b>ACRONYMS</b>
R-1	<b>REFERENCES</b>

## LIST OF TABLES

- 1.1 FPHCP Reporting Elements
- 1.2 Forestland area in Washington by Planning Region and Ownership category
- 1.3 Species found in Washington State covered by the FPHCP
- 1.4 Federally listed and candidate animals in Washington not covered under the FPHCP, including their occurrence on covered lands
- 1.5 Federally listed and candidate plants in Washington not covered under the FPHCP and their distribution on FPHCP-covered lands
  
- 2.1 Forest Practices Milestones
  
- 3.1 Proposed FPHCP-covered Fish Species Status and Spawning and Rearing Distribution by Region
- 3.2 Distribution of FPHCP-covered Amphibian Species by Planning Region
  
- 4.1 Western Washington Type 1-Type 3 RMZ Preliminary Assessment Results
- 4.2 Eastern Washington Type 1-Type 3 RMZ Preliminary Assessment Results
- 4.3 Proposed Forest Practices Compliance Monitoring Timeline
- 4.4 Forest Practices Compliance and Enforcement Activity for 2002-2003
- 4.5 Riparian management zone widths for western Washington Type S and Type F waters where no harvesting occurs in the inner zone
- 4.6 Riparian management zone widths for Type S and Type F waters when employing the “thinning from below” harvest option
- 4.7 Riparian management zone widths for Type S and Type F waters when employing the “leaving trees closest to the water” harvest option
- 4.8 Riparian management zone widths and leave tree requirements for exempt 20-acre parcels in western Washington
- 4.9 Eastern Washington riparian management zone widths for waters less than or equal to 15 feet bankfull width
- 4.10 Eastern Washington riparian management zone widths for waters greater than 15 feet bankfull width
- 4.11 Restrictions on salvage logging within RMZs for Type F and Type S waters
- 4.12 Wetland management zone widths for Type A and Type B wetlands
- 4.13 FFFPP Accomplishments 2002-2005
- 4.14 Site Classes for western and eastern Washington and corresponding site indices for Douglas-fir
- 4.15 Riparian management zone widths for western and eastern Washington by site class
- 4.16 Exempt 20-acre parcel stream length and stream length by HCP planning region
- 4.17 Spatial extent of riparian zones and unstable slopes protected under a hypothetical minimal effects strategy and the FPHCP

## LIST OF FIGURES

- 1.1 Appropriations for Forests & Fish 1999-2005
- 1.2 Forestlands in Washington subject to the Forest Practices Act
- 1.3 Forested regions of Washington and lands covered under the FPHCP
  
- 2.1 Management of Forested Lands in Washington State
  
- 3.1 Distribution and Endangered Species Status of Chinook Salmon within Washington State
- 3.2 Distribution and Endangered Species Status of Chum Salmon within Washington State
- 3.3 Distribution and Endangered Species Status of Coho Salmon within Washington State
- 3.4 Distribution and Endangered Species Status of Sockeye Salmon within Washington State
- 3.5 Distribution and Endangered Species Status of Steelhead within Washington State
- 3.6 Distribution and Endangered Species Status of Bull Trout within Washington State
  
- 4.1 Structure of Washington's Forest Practices program and the programmatic FPHCP
- 4.2 The approach to habitat conservation under the FPHCP
- 4.3 Structure of the Forest Practices Adaptive Management program
- 4.4 Regional offices for DNR
- 4.5 Schematic of the core, inner and outer zone within riparian management zones
- 4.6 Type Np protection measures for western Washington
- 4.7 Bull Trout Overlay
- 4.8 Relationship between cumulative effectiveness of various riparian functions and distance from the stream channel
- 4.9 Distribution of source distances from origin to stream bank for conifer LWD in old-growth stands and hardwood and conifer LWD in mature stands and for trees 40 meters and 50 meters tall
- 4.10 Distances from the stream to sources of LWD
- 4.11 Source distance distribution from origin to bankfull edge for LWD originating from second-growth forest in northwest Washington
- 4.12 Relationship of angular canopy density to buffer strip width in western Oregon
- 4.13 Relationship of angular canopy density and stand age for vegetation zones in western Oregon
- 4.14 Hypothetical time-to-recovery curves for sediment, water temperature and large woody debris under Washington's FPHCP
