

**Section 14**  
**Survey Protocol for Marbled**  
**Murrelets**

**WAC 222-12-090 (14)** requires the most current Pacific Seabird Group terrestrial survey protocol shall be used when surveying for marbled murrelets in a stand. Surveys are valid if they were conducted in compliance with the board-recognized Pacific Seabird Group survey protocols in effect at the beginning of the season in which the surveys were conducted.
