

VOLUME I
CONTENTS

GLOSSARY..... G-1

SUMMARY S-1

1. PURPOSE AND NEED 1-1

 1.1 Introduction 1-1

 1.1.1 Structure of the Endangered Species Act 1-1

 1.1.2 Washington State’s Forest Practices Habitat
 Conservation Plan (FPHCP) 1-3

 1.1.3 Process for Obtaining Take Assurances 1-11

 1.2 Purpose and Need for Action 1-12

 1.2.1 Purpose for Action 1-12

 1.2.2 Need for Action 1-12

 1.2.3 Decisions to be Made 1-12

 1.3 Background and Context 1-15

 1.3.1 Washington Forest Practices Regulatory Program 1-15

 1.3.2 Washington State Legislative Directive Regarding Federal
 Assurances 1-18

 1.4 Scoping and the Relevant Issues 1-18

 1.4.1 Scoping Process 1-18

 1.4.2 Issues Identified During Scoping 1-20

 1.5 Relationship to Other Plans, Regulations, and Laws 1-23

 1.5.1 Federal Regulations 1-23

 1.5.2 State Regulations 1-24

 1.6 Organization of this EIS 1-27

2. ALTERNATIVES 2-1

 2.1 Introduction 2-1

 2.2 Alternative Development 2-1

 2.3 Alternatives Analyzed in Detail 2-2

 2.3.1 Alternative 1 (No Action) 2-3

 2.3.2 Alternative 2 (Issuance of Two Incidental Take Permits
 and Implementation of an HCP) 2-38

 2.3.3 Alternative 3 (Implement a Conservation Plan with a
 NMFS Section 4(d) Limit 13 Approval and USFWS
 Section 4(d) Take Exemption) 2-44

 2.3.4 Alternative 4 (Increased Forest Ecosystem Protections) 2-46

 2.4 Alternatives Considered But Eliminated from Detailed Analysis 2-51

 2.4.1 Alternative with Fewer Restrictions on Landowners than
 the Proposed FPHCP 2-51

 2.4.2 Alternative with a Reduced Permit Duration or the
 Elimination of a “No Surprises” Provision 2-51

Contents

2.4.3 Alternative with a Higher Protection/Restriction Level 2-52

3. AFFECTED ENVIRONMENT 3-1

3.1 Introduction 3-2

3.2 Land Ownership and Use 3-5

3.2.1 Introduction 3-5

3.2.2 Existing Habitat Conservation Plans 3-9

3.2.3 Land Ownership and Use by Region 3-9

3.2.4 Timber Harvest for Western and Eastern Washington 3-13

3.2.5 Forestland Conversion 3-19

3.3 Air Quality 3-25

3.4 Geology, Soils, and Erosional Processes 3-27

3.4.1 Geology and Soils 3-27

3.4.2 Erosion 3-30

3.5 Water Resources 3-39

3.5.1 Surface Water Quality 3-39

3.5.2 Surface Water Quantity 3-45

3.5.3 Groundwater Quantity and Quality 3-53

3.6 Vegetation 3-55

3.6.1 Forest Vegetation 3-55

3.6.2 Riparian Vegetation 3-60

3.6.3 Disturbance Agents 3-61

3.6.4 Threatened and Endangered Plants 3-65

3.6.5 Invasive Plants 3-65

3.7 Riparian and Wetland Processes 3-67

3.7.1 Riparian Areas 3-67

3.7.2 Wetlands 3-73

3.8 Fish and Fish Habitat 3-79

3.8.1 Introduction 3-79

3.8.2 Fish Status in Washington 3-79

3.8.3 Life History of Covered and Affected Fish Species 3-80

3.8.4 The Freshwater Aquatic Ecosystem 3-96

3.8.5 Fish and Fish Habitat by Analysis Region 3-104

3.9 Amphibians and Amphibian Habitat 3-113

3.9.1 Introduction 3-113

3.9.2 Amphibian Distribution, Status, and Habitat 3-114

3.9.3 Review of Timber Harvest Effects on Amphibians 3-120

3.10 Birds, Mammals, Other Wildlife and Their Habitats 3-125

3.10.1 Introduction 3-125

3.10.2 Federally Threatened or Endangered Wildlife Species 3-127

3.10.3 Importance of Riparian Habitats to Wildlife 3-135

3.10.4 Wildlife in Upland Forested Habitats 3-137

3.11 Recreation 3-141

3.11.1 Introduction 3-141

3.11.2 Estimates of Future Recreational Needs 3-142

3.11.3 Private Lands and Recreation 3-143

3.11.4 Forest Road-related Recreation 3-143
