TIME: 10:33 AM

WSR 23-11-161

Agency: Department of Natural Resources

Subject of possible rule making: Amending WAC 332-130-080(3) to revise the requirement for reporting relative accuracy on the land survey map being recorded.

Statutes authorizing the agency to adopt rules on this subject: RCW 58.24.030 and 58.24.040.

Reasons why rules on this subject may be needed and what they might accomplish: The wording in the current version of WAC 332-130-080(3) is permissive about having a statement about relative accuracy on the survey map. This revision will make a relative accuracy statement mandatory.

Identify other federal and state agencies that regulate this subject and the process coordinating the rule with these agencies: Coordination on compliance is with the Board of Registration for Professional Engineers and Land Surveyors (BRPELS).

Process for developing new rule (check all that apply):

- Negotiated rule making
- Pilot rule making
- Agency study

Other (describe) Full rule-making process. Drafted in conjunction with stakeholders, including the Board of Registration for Professional Engineers and Land Surveyors (BRPELS).

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication by contacting:
