

# Ashley Cabibbo, L.G.

## Geoscientist/GIS Specialist

Ashley is a member of the GIS/Editing section of the Survey, which is responsible for the Survey's website, data portal, GIS data, lidar, publications, and outreach. She works on preserving the Survey's at-risk data such as historical field notebooks, coal mine maps, and photographs. She also works on the well data for the Survey's node on the National Groundwater Network. Ashley is working hard at developing the Survey's education and outreach program.
