

Liza Kovich

CivicSpark Fellow

Liza is the 2025-2026 CivicSpark Fellow for the Washington Geological Survey. This position works closely with the Geologic Planning Liaison on a project that focuses on analyzing geologically hazardous areas code provisions in Washington. Quantitative and qualitative data is collected for each code to determine their relative strengths and weaknesses. As a recent graduate from the University of Washington, Liza is excited to explore jobs within DNR and work towards career development goals.

Visiting the Grand Tetons!
